

## A Peachy Problem

1. Read the problem.

There are **12** peaches in a bag.

Hilda and her friends eat **7** peaches.

How many peaches are left?

You want to know how many are left.

Will you add or subtract? Complete the number sentence. Write your answer.

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} = \underline{\quad\quad}$$

There are \_\_\_\_\_ peaches left.

2. Write your own problem about peaches.

---

---

---

---

Decide whether you should add or subtract.

Write a number sentence.

$$\underline{\quad\quad} \bigcirc \underline{\quad\quad} = \underline{\quad\quad}$$

3. Trade your problem and number sentence with a classmate. Have him or her solve the problem.
