

Add Three Numbers

Read each problem.

Write an addition sentence to solve.

Draw or write
to explain.

1. Anton walked **4** blocks to the store.
He walked **4** blocks to Craig's house.
He walked **2** blocks home.
How many blocks did he walk in all?

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \text{ blocks}$$

2. Mary found **7** pennies in her purse.
She found **3** pennies in her pocket.
She found **1** penny on the sidewalk.
How many pennies did Mary find?

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \text{ pennies}$$

3. John planted **6** corn plants.
He planted **3** tomato plants.
He planted **3** bean plants.
How many plants did John plant in all?

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \text{ plants}$$
