

# Fraction Scales

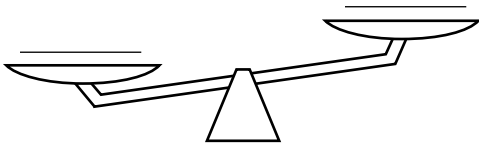

Compare the pair of fractions below each scale. Write  $>$  or  $<$  for each  $\bigcirc$ . Then write one fraction on each pan of the scale so that the scale is out of balance as shown.

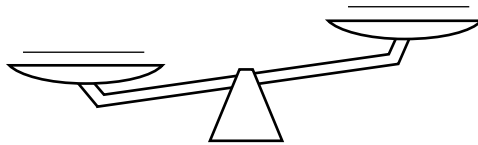

1.   
 $\frac{3}{8}$        $\bigcirc$        $\frac{7}{8}$

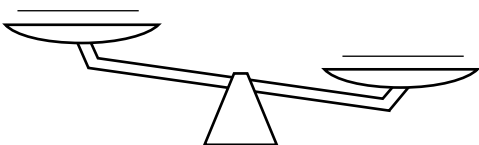

2.   
 $\frac{1}{5}$        $\bigcirc$        $\frac{1}{3}$

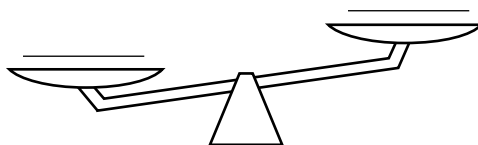

3.   
 $\frac{3}{4}$        $\bigcirc$        $\frac{1}{2}$

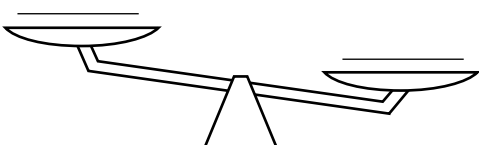

4.   
 $\frac{1}{7}$        $\bigcirc$        $\frac{1}{9}$

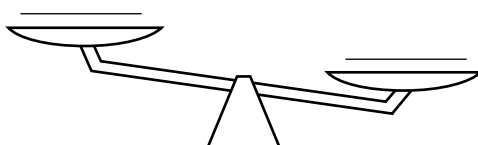

5.   
 $\frac{5}{10}$        $\bigcirc$        $\frac{9}{10}$

6.   
 $\frac{4}{5}$        $\bigcirc$        $\frac{3}{4}$

7.   
 $\frac{1}{4}$        $\bigcirc$        $\frac{2}{9}$

8.   
 $\frac{1}{2}$        $\bigcirc$        $\frac{6}{10}$

9.   
 $\frac{2}{3}$        $\bigcirc$        $\frac{3}{5}$

10.   
 $\frac{7}{10}$        $\bigcirc$        $\frac{3}{4}$
